**DRY EYE
TREATMENT**

EFFECTIVE AND
LONG-TERM
BENEFITS

REXON-EYE TREATMENT

The dry eye disease affects hundreds of millions of people worldwide and may have a relevant influence on their daily life.

For a long time there have been no effective therapies to treat it with stable and durable effects.

**REXON-EYE'S EFFICACY
IN TREATING THE
DRY EYE DISEASE IS
CLINICALLY PROVEN.**

LONG-TERM BENEFITS

Rexon-Eye is the ultimate, non-invasive and durable treatment for all types of dry eye disease.

It stimulates the metabolism and natural regeneration of cells delivering long-term results.

This treatment is highly appreciated by patients worldwide.

**THE PRINCIPLE OF OPERATION OF
REXON-EYE IS QMR® - QUANTUM
MOLECULAR RESONANCE**

QMR® is a registered trademark
by Telea Electronic Engineering

HOW DOES IT WORK

The therapy consists of 4 treatment sessions of 20 minutes each, at one week intervals.

The treatment, always pleasant and relaxing, results in short-term as well as long-term benefits for the patient.

Rexon Eye treatment addresses all types of the dry eye disease, both evaporative and aqueous deficient, as evidenced by several subjective and objective measurements.
